Homework set #3

Object Oriented Programming

Nov./6/2015

(Upload your homework to E-learning by Nov./19/2015. Please consult your TA for any questions).

Problem 1: Exercise 17.5, p.683 of the textbook.

Problem 2: Exercise 17.7, p.684 of the textbook.

Problem 3: Exercise 17.10, p.684 of the textbook.

Note: Zip these files (.h, .cpp, .obj, .exe). Name the zipped file using your student number, e.g., **Hw3_fall2015_A1035501.zip,** and then upload the compressed file to E-learning. Also, you shall print out the output on the screen for this problem after executing the .exe file. Then collect these results to generate a single .doc document. Finally name this homework document as **Hw3_fall2015_A1035501.doc** and upload it to E-learning.

In summary, every student is expected to upload 2 files:

Hw3_fall2015_studentID.zip
Hw3_fall2015_ studentID.doc
